Professor of Media and Public Affairs at

The George Washington University and Special Correspondent with CNN

HFA's 2009 teleconference, *Diversity and End-of-Life Care*, will examine how diversity influences end-of-life decision making and the impact that culture has at the time of death and during bereavement. The program will also discuss the challenges that may occur when cultural considerations may cause ethical concerns or moral distress.

For more information on objectives or a list of panelists: hospicefoundation.org/teleconference

This program is free. Seating is limited.

Continuing education credits will be available in many disciplines from Hospice Foundation of America for \$25. Instructions will be available at the teleconference sites.
